Utilization rate of irrigation facilities

3234. SHRI KRISHNA KUMAR BIRLA : Will the Minister of WATER RESOURCES be pleased to state :

(a) what is the utilisation rate of irrigation facilities in proportion to their potential in respect of major and medium irrigation projects;

(b) what is percentage by which the utilisation rate of irrigation facilities fell during the Seventh Plan and what is the anticipated drop in the utilisation rate during the Eighth Plan; and

(c) what are the reasons for fall in the utilisation rate of irrigation facilities and the strategy, if any, formulated by Government to increase the utilisation rate of irrigation facilities during the Eighth Plan ?

THE MINISTER OF STATE IN THE MINISTRY OF URBAN DEVELOPMENT WITH ADDITIONAL CHARGE OF THE MINISTER OF STATE IN THE MINISTRY OF WATER RESOURCES (SHRI P. K. THUNGON) : (a) and (b) Irrigation potential created, utilised and percentage of utilisation over potential created through major and medium irrigation projects at the end of Sixth Plan (1980-85), Seventh Plan (1985-90), Annual Plan (1991-92) and likely achievements at the end of Eighth Plan (1992-97) are as under :—

(in thousand hectares)

At the end of	Irrigation Potential		% of utilisation over creation
	created	Utilised	
Sixth Plan (1980—85)	27695	23574	85.12
Seventh Plan (1985—90)	29920	25467	85.12
Annual Plan (1991-92)	30984	26583	85.80
Eighth Plan (1992—97) (Targets)	36072	30835	85.48

(c) Though there have not been any shortfall in the utilisation rate of irrigation facilities through major and medium irrigation projects during the Seventh Plan (1985-90) and anticipated in Eighth Plan (1992-97) the major reasons for fall in the utilisation rate inter-alia include (i) poor maintenance of irrigation and drainage systems due to resource constraints, (ii) non-availability of micro level distributions systems (field channels), (iii) improper distribution of water at micro level (iv) non-introduction of rotational water supply/warabandi, (v) less water availability in reservoirs and lack of farmers participation in irrigation water management. To increase the utilisation rate of irrigation facilities, a Centrally sponsored Command Area Development Programme has been in implementation since 1974-75. The strategy for his programme during the Eighth Plan is to ensure reliability of irrigation
